

COLLABORATIVE RESEARCH INFRASTRUCTURE SCHEME

SUCCESSFUL APPLICATIONS

Eligible Project	Amount
The University of Tasmania for the Structure and Evolution of the Australian Continent	\$4,012,632
The University of Adelaide for the Australian Plant Phenomics Facility	\$3,280,000
The University of Tasmania for the Integrated Marine Observing System	\$7,204,632
The University of Adelaide for the Atlas of Living Australia	\$2,795,000
Macquarie University for the Bioplatforms Australia	\$4,450,000
Monash University for the Australian National Fabrication Facility	\$7,310,000
The University of New South Wales for Groundwater Infrastructure Research Operational Support	\$488,250
Swinburne University of Technology for Astronomy National Research Infrastructure	\$3,474,000
The University of Western Australia for the Population Health Research Network	\$3,085,000
The University of Sydney for the Australian Microscopy and Microanalysis Facility	\$5,076,036
The Australian National University for Heavy Ion Accelerators	\$2,280,000
The Australian National University for the Australian Phenomics Network	\$4,700,000
The University of Queensland for the Terrestrial Ecosystems Research Network	\$3,065,000
The University of Queensland for the National Imaging Facility	\$4,287,450
Monash University for the Australian National Data Service	\$3,000,000
James Cook University for the Australian Institute for Marine Science (Sea Simulator)	\$1,492,000
