Determination for trainer and assessor competencies

The National Skills Standards Council (NSSC) is responsible for setting the competency standards required by VET trainers and assessors who deliver nationally recognised training and assessment services. At its meeting of 17 June 2013, the NSSC endorsed an amendment to the Determination for Training and Assessment Competencies to be held by Trainers and Assessors to reflect the superseded TAE10 Enterprise Trainer Skill Set and new coding of the TAE Assessor Skill Set. This determination specifies the minimum qualifications or competencies that must be held by trainers, people delivering nationally recognised training under supervision and assessors in the VET sector.

Determination of the National Skills Standards Council – 17 June 2013

This Determination replaces the Determination of the NSSC dated 8 December 2011 to reflect changes made to the TAE10 Training and Education Training Package’s Enterprise Trainer Skill Sets and is effective as of 1 July 2013.

**Vocational competency**
Vocational competency is defined as broad industry knowledge and experience, usually combined with a relevant industry qualification. A person who has vocational competency will be familiar with the content of the vocation and will have relevant current experience in the industry. Vocational competency must be considered on an industry-by-industry basis and with reference to any guidance provided in the relevant Training Package or Accredited Course.

Training Packages or Accredited Courses include advice specific to the industry related to the vocational competencies of trainers and assessors. This may include advice on relevant industry qualifications and experience required for training and assessing against the Training Package or Accredited Course. The Training Package or Accredited Course may also provide specific industry advice outlining what it sees as acceptable forms of evidence to demonstrate the maintenance of currency of vocational competency.
