# Child Care Package

More support for more families

The Package helps parents and carers who want to work or who want to work more, while making early childhood education and care more affordable and accessible.

There is also a Child Care Safety Net to help children and families that need it the most.

The Child Care Package includes the Child Care Subsidy to reduce the fees you pay.

The Child Care Finder is a simple way for you to find a service that suits your needs. Visit: [childcarefinder.gov.au](https://childcarefinder.gov.au).

You can apply for the Child Care Subsidy and update your details at any time through myGov.

Using the Centrelink Payment and Service Finder you can estimate how much Child Care Subsidy you may receive.

For more information go to [education.gov.au/childcare](https://education.gov.au/childcare)
