1. Introduction

1.1. What is in the publication

This publication contains adjusted financial statements for higher education providers (HEPs) as listed in the *Higher Education Support Act 2003* for the 2013 reporting period. The data was extracted from audited financial statements and provided to the Department of Education (Education) in 2014. The adjusted financial statements are presented in a format similar to that outlined in the Department's *Financial Statement Guidelines for Australian Higher Education Providers for the 2013 Reporting Period*.

1.2. Significant items

1.2.1. Property, Plant and Equipment - Infrastructure

Many universities identify infrastructure as a classification under Property, Plant and Equipment. More universities are adopting this approach and this is leading to some inconsistency between universities. In this publication, universities that have identified infrastructure in their financial statements or were able to provide a breakdown to Education, have had the infrastructure reported in Other Property, Plant and Equipment. For some universities this was included in Buildings in previous versions of this publication.

For full details the universities' financial statements should be examined.

1.2.2. Defined Benefit Obligations

In 2013 changes to accounting standards (AASB119) changed the ability for entities to choose their treatment for defined benefit obligations and as a result universities that have defined benefit obligations are required to adopt the direct to equity approach. This is consistent with the approach that was taken for the previous publications from 2009 through to 2012. The main difference this year is that amounts reported will not require significant adjustment for reporting in this publication. Deferred superannuation revenue and expenses are reported on a net basis in both profit and loss items and other comprehensive income. As such, universities with only defined benefit obligations that are fully covered by the Australian Government Superannuation Supplementation Program will report a nil expense and nil actuarial changes.

1.1. The data reported

1.1.1. How the data was collected

Each year HEPs are required to prepare Annual Financial Statements in accordance with the specifications in the *Financial Statement Guidelines for Australian Higher Education Providers* (Guidelines) for the relevant reporting period. These Annual Financial Statements are intended to meet the financial reporting requirements of the Australian Government and State/Territory agencies.

This publication has been prepared from HEPs' audited Annual Financial Statements and, while in most respects the data in this publication will be the same as those statements, there may be some minor classification differences. This is because the Annual Financial Statements of some HEPs depart from the Guidelines. Also, the Adjusted Statements of Financial Performance for dual sector HEPs, in some instances, include data that was not reported in the financial statements but provided by HEPs in separate spreadsheets.

As the financial statements in this document are not identical to the financial statements in the providers' published Annual Financial Reports, the term 'adjusted' has been used.

Unless otherwise indicated, amounts relate to the parent entity for the total institution as indicated in the university's financial statements. That is, tables 1, 3, 4 and 5 include both higher education and vocational education and training sectors for dual sector institutions.

Amounts in respect of 2012 included in the Overview of Data are amounts as reported in the Finance 2012 publication.

1.1.2. HEPs providing data

The data reported in tables 1 to 5 relate to HEPs listed in Table A of the *Higher Education Support Act 2003* and the University of Notre Dame Australia (which is listed in Table B of the Act). The data for 2013 was obtained from the 39 HEPs listed in Appendix 1.

1.2. Conventions followed in representing the data

Data in the tables are dollars rounded to the nearest thousand. Therefore totals do not always match precisely with the sum of values in the rows and columns. Zeros indicate that the original value was nil or less than \$500.
