

List of Registered Child Care Subsidy software

The software providers who produce the software products listed on this page have provided a declaration to The Department of Education and Training (Education) that the software has been tested and registered to transact with both the Child Care Subsidy System (CCSS) and Child Care Management System (CCMS), and have undertaken to abide by the *CCSS and CCMS IT Security and Development Principles for Software Providers*.

Based on the assessment of testing results, Education is satisfied that these software products enable Child Care services to interact with the CCSS and CCMS. However, Education has not done any independent testing and listing on this page does not constitute an endorsement of the product by Education.

Education does not accept any liability for these products, including but not limited to; any adverse effect the use of these products may have on your existing IT environment; or any outcome arising directly or indirectly as a result of using these products, including failure by you to comply with your legislative obligations.

If you wish to purchase software listed on this page you should do so on the basis of independent consideration and/or advice. When selecting a registered Child Care Subsidy software product:

- It is your responsibility to satisfy yourself that the particular product is suitable for your service and existing IT environment.
- You should evaluate alternatives and properly assess and test any product chosen to ensure that it works as expected and without side effects for your systems before proceeding to implement it.
- You should seek independent advice if you believe that a statement made by a software producer is false and/or misleading.
